

An Omega-3
(DHA & EPA)
Supplement for
Horses

DESCRIPTION

Fish Oil Factor provides the essential fatty acids EPA & DHA. This formula provides a critical balance of omega-3 and omega-6 fatty acids designed to:

1. Supply essential fatty acids for a soft, silky, shiny and healthy coat.
2. Maintain pliability and hoof moisture.
3. Ideal for breeding stallions, pregnant mares, growing horses, and performance horses.

FEEDING DIRECTIONS

FOALS AND WEANLINGS: Feed 1-2 scoops (25-50 grams) per day top dressed on horse's grain mix.

YEARLINGS AND OLDER: Feed 2 scoops (50 grams) per day top dressed on horse's grain mix.

PERFORMANCE: Feed 2-4 scoops (50-100 grams) per day top dressed on horse's grain mix during training and competition.

BROODMARES: Feed 2-4 scoops (50-100 grams) per day top dressed on horse's grain mix beginning at least 30 days prior to breeding and continuing until at least 60 days after last breeding.

STALLIONS: Feed 8-10 scoops (200-250) per day top dressed on horse's grain mix beginning 30-45 days prior to breeding and continuing throughout breeding season.

ALL HORSES: Provide good quality hay and/or pasture, salt and water free choice.
